

POWERING POSITIVE CHANGE

August 15, 2024

Maxeon is committed to being the leading provider of the world's finest solar panels and solar energy solutions.

In light of the unfortunate news regarding SunPower Corporation's filing for bankruptcy protection under Chapter 11, we want to provide an update regarding warranty support for solar panels made by Maxeon Solar Technologies and supplied by SunPower Corporation.

If you own a SunPower system that includes SunPower-branded panels that are manufactured by Maxeon Solar Technologies, Maxeon will meet its warranty obligations for these solar panels.

Maxeon solar panels are manufactured with the highest quality standards and have one of the lowest return rates in the industry. In our 40-year history, only 1 in 20,000 solar panels have been returned to us under warranty – that's 0.005%.

For support issues, please contact your solar installer. Maxeon will work with your installation partner to support any warranty coverage.

An opportunity to register your system for continued warranty coverage by Maxeon will be coming soon.

Thank you for Powering Positive Change,
Maxeon Solar Technologies
